

To learn more about the benefits and value-added services provided by Lowney Associates for this project, please call.

Cisco Systems Corporate Campus Lowney Associates provided both geotechnical and environmental services for the phased development of 154 acres of the former Agnews Hospital in Santa Clara. Cisco Systems is constructing 19 three- to four-story buildings that will total 3.3 million square feet. We have recently completed final geotechnical investigations for Buildings 13 and 14. The designer/builder is Devcon Construction, Inc.
