

To learn more about the benefits and value-added services provided by Lowney Associates for this project, please call.

Saratoga School District Improvements Lowney Associates recently completed geotechnical investigations for the Saratoga Union School District. Improvements are planned at Saratoga, Foothill and Argonaut Elementary Schools and Redwood Middle School. Development plans include the construction and expansion of several one- and two-story buildings. Lowney Associates is currently providing geotechnical observation and testing services for Saratoga Elementary and Redwood Middle Schools during mass grading, shallow and drilled pier foundation construction and underground utility installation.
