

To learn more about the benefits and value-added services provided by Lowney Associates for this project, please call.

United States Postal Service As part of a continuing effort to bring USPS underground storage tank (UST) sites into compliance with upcoming 1998 regulations, Lowney Associates recently helped coordinate tank removals and upgrades. A total of 25 sites were impacted ranging from Los Angeles to as far north as Redding. Lowney Associates also prepared UST environmental operation, maintenance and management plans for 40 USPS facilities.
